

ALBUM PHOTO SHEET · 2D DRAWING

TRIM 200 × 285 MM
24 PP · 12 LEAVES · 300 GSM
ALL DIMENSIONS IN MM

Finished (trim) size	200 × 285 mm — 20.0 × 28.5 cm
Bleed	3 mm all round → artwork 206 × 291 mm
Safe area	10 mm inside trim on all four edges
Binding edge	15 mm at the left / spine edge, image only
Extent	24 pages = 12 leaves, printed both sides
Stock	300 GSM
Cover overhang	6 mm head & tail · 10 mm fore-edge
Layflat gutter extension	16.5 mm → mounted leaf 216.5 × 285 mm

NOTES

1. Sheet is **not A4**. 200 × 285 mm sits inside the 210 × 297 mm cover so the boards overhang the block — correct for an album.
2. Supply every sheet at 206 × 291 mm with the 3 mm bleed filled; trimming happens after binding.
3. The 15 mm binding strip is lost in the gutter on a glued or screw-post block. Keep faces and horizons out of it.
4. At 300 GSM the block is ~12 × 0.33 mm ≈ 4 mm; the 13 mm spine allows for board, endpaper and hinge — see Plate 02.
5. Resolution 300 ppi at final size. CMYK, total ink limit 300%.
